Lab Test Instructions

Thank you for ordering your lab tests with Evexia Diagnostics. Please follow the steps below to successfully complete your tests.

Before your tests: Review and follow any special instructions from your doctor. Some tests may require you to fast for a certain period, refrain from taking certain medication and supplements and/or refrain from certain activities. Accuracy of your test results would depend on how well you follow the instructions so be sure to check with your doctor in advance.

STEP 1: Find a Lab -- Your tests will be performed by LabCorp. Find a convenient location near you using the lab locator (www.labcorp.com/labs-and-appointments) to make an appointment.

****Going to any Lab Other than LabCorp will result in the outside lab billing you directly at a higher Cost****

STEP 2: Visit a LabCorp

Bring: (1) Lab Order Form "Patient Service Center Request" and (2) Photo Identification.

STEP 3: At LabCorp / Patient Service Center

**** Do not show a proof of insurance.**

**** Do not make any payment.**

If the LabCorp Patient Service Center (PSC) cannot find your lab order:

- Provide this account number 06008005 (Evexia Diagnostics) and inform the lab personnel that your lab order is **CLIENT BILL**.
- When there are multiple orders with your name, ask the PSC to use an order that matches the MRN number found on your requisition form (Req/Control # starting with "EVL").
- If the PSC is unable to locate your order, please call Evexia Diagnostics customer support at 888-852- 2723 for assistance. Evexia Diagnostics Customer Service representative will ask for your first name, last name, date of birth, and the name of your practitioner to locate the test order information to assist you.
